## Nuug 1Ltr Camel Milk

---

### Description

Nuug Camel milk is gently pasteurized, sourced from naturally grazed camels. 100% wholesome non-homogenized camel milk.

Camels naturally graze in the wild on more than 200 species of natural vegetation and herbs, no wonder this milk is so healthy! Camel milk has over 200 proteins, with some being totally unique to camel milk. A single cup of camel milk has higher calcium, thiamine, niacin, iron, potassium, copper, manganese, Vitamin B1, Vitamin C than cow milk. It also has 50% less fat and overall less calories, saturated fat, and sugars than cow milk. All these translate into a number of benefits to your body!

No artificial additives, or preservatives have been added. We guarantee: nothing was added, nothing was removed! With every sip, you can taste the savannah and wildlife of the desert!

Camel milk is high in minerals and vitamins, so you may find it a bit salty.

Separation of fat globules is natural. Just give it a shake and indulge on this wholesome dairy!

### Ingredients:

100% pure camel milk.
